```
margin-top: -3px;
bootstrap.alert {
  background-color: #f7f;
}
.Label {
  display: inline;
  padding: 2em 0.5em 3em;
  font-size: 1.2em;
  font-weight: 700;
  line-height: 1;
  color: #fff;
  text-align: center;
  text-align: nowrap;
  white-space: nowrap;
  vertical-align: baseline;
  border-radius: 25px;
}
.Label-Information {
  font-size: 0.8em;
  font-weight: normal;
  padding: 5px;
  float: left;
  margin-right: 5px;
  cursor: pointer;
}
```

WEB DESIGN & DEVELOPMENT

Coddix is a website design firm specializing in the design and development of custom and professional web apps.

CUSTOM APP DEVELOPMENT

We offer custom solutions that go beyond plugins. We can always say “yes, that’s possible.”

UI / UX DESIGN

The user interface is the window through which the world experiences your brand and your product.

SOFT DEVELOPMENT TEAM

Take advantage of our Team Placement capabilities and save costs without compromising on product quality!

CROSS PLATFORM APPS

By taking advantage of the modern cross-platform technology stack including PhoneGap and React Native.

B2B SOLUTIONS

Proven project development methodologies and best practices to help you optimize budget.

Providing The Highest Quality of Web Development

The type of solutions we have most experience of is custom web applications that require a minimum of 300 man hours to develop. Our software developers have handled projects up to around 25,000 man hours spread out over two years of development.

Technology

OUTSOURCE API DEVELOPMENT

We provide API development and API integration services across all industry verticals.

Application Programming Interface (API) is indispensable to any web solution, software module, plugin, web application, or web design

Enhanced Usability

A successful web application needs to be intuitive, and feature a simple and easy-to-grasp user interface. Our web solutions are in-tune with the latest developments in web technology, and ensure a rich graphical UI for your application for better conversions and higher customer satisfaction rates.

Improved Scalability

With our experience in mobile app development, we ensure that we can help your business scale easily from a web based application to popular mobile and tablet platforms without a hitch. Be it an e-commerce solution or an enterprise app, we can develop the same for iOS, Android, and Windows in a cost-effective manner.

Why Us

INFORMATION TECHNOLOGY EXPERTISE

We specialize in many technologies, and have the experience in developing Client/Server and Multi-Tier Database.

Coddix is an experienced and passionate group of designers, developers, project managers, writers and engineers.

Your Project Manager

Every project with Coddix is assigned to a dedicated project manager. Your project manager is your direct line to Coddix, ensuring that you always know what's going on, what's next, and what we need from you. An expert in putting out fires (and lighting fires under people, occasionally).

Information Technology Expertise

We specialize in many technologies, and have the experience in developing Client/Server and Multi-Tier Database Applications as well as Stand-Alone Desktop Solutions.

Other Features

Never settling for the status quo or resting on the successes of today, we push our clients, our employees, and our industry to go to the edge of what is possible and exceed their own expectations.

The Process

BRIEF

Every project is unique as is your brand. Your brand is what you stand for and how this is presented to your clients is very essential. So for us is also very fundamental that we understand the needs of the project and the target group.

QUOTE

When analyzing the summary, we establish objectives and vision, we provide a budget with respect to the cost of the project. We offer a list of services and solutions that can be customized according to the project.

DESIGN

Custom Design, our passion. We give solutions based on your needs, paying attention to every detail of the project, so that we create memorable brands that engage our clients with their clients.

DEVELOPMENT

Website needs harmony between ingenious design and innovative use of technology. Giving life with animations and interactions with users. We evaluate the result by making the necessary modifications to achieve an even better user experience.

DEMO & TESTING

We provide the customer with a unique link. From this link, the client can see and make the necessary comments. Then, we thoroughly test each page and the functionality to guarantee the best result.

LAUNCH

When everything is ready we launch the website! Then we enjoy and share!

About Us

WHAT CAN WE DO FOR YOU?

All our work is completed to the same high standard whether it is a single web page or a complete custom solution.

Using the best technology available, we build web apps everyday making happy customers.
